Summit Parties

Congratulations to the many children listed below who succeeded in the summit challenge by 'inspiring others' and achieving a summit stamp in their reading record book for at least 20 days this half term. They all attended summit parties this week and had lots of fun with Mrs Deeks! Next half term, the challenge to achieve 20 stamps remains the same. However there are fewer days to collect stamps, so if your child found it easy to achieve this half term's goal, they may need to work even harder next term. We are rooting for all your children to succeed!

Home Learning Workshops

The next cycle of home learning workshops will commence early in the New Year. We look forward to learning together with you again on the following dates below. Please put these in your calendar to ensure you have planned ahead and are available to support your child. Five out of eight year groups had 100% attendance by parents and carers, so please continue to make your child's development a priority. During these workshops we will again explore aspects of reading as this remains a priority area for development at Ark Paddington Green. We will also explore 'time' in maths and our new PSHE unit on Healthy Relationships. Finally, you will receive important performance data in reading, writing, maths, grammar and phonics, as well as other learning goal areas in Nursery and Reception.
